DLA Surplus Guidance

(continued. . .)

- A $500 cost will be added to the offer for EACH ESA evaluation.
- The cost of testing will be added to the offer if testing is required.
- Evaluation of surplus offers will exclusively address technical acceptability of the material.

DLA Surplus Guidance

(continued. . .)

- Surplus dealers can open packages and inspect surplus material (Exclusion-Clean Room packaged Bearings and ESM packaged items).

- Surplus dealers should provide material that fully complies with requirements of the current solicitation.

DLA Surplus Guidance

(continued. . .)

- Due to an items critical nature, ESA will always be required to evaluate surplus on specified categories such as:
  - ✓CSI (Critical Safety Item)
  - ✓LSE (Life Support Equipment)

Review Criteria

- Formerly Government Owned Material.
- Conditions for Evaluation of Offers of Surplus Material:
  - ✓$200 for local evaluation, $500 for each ESA if the evaluation must be coordinated with the Engineering Support Activity.
  - ✓Testing costs, if required, are also factored into the evaluation criteria.
  - ✓Special circumstances (urgency, obsolescence, etc) may warrant waiver of cost savings criteria.

The Review Process

- Offeror submits completed DLAD 52.211-9000 Government Surplus Material clause.
- Information is reviewed by the technical/quality specialist.
- Traceable to a Government Selling Agency.
- Research former Government contract.
- Quality history of part/original contract is researched (revisions, technical characteristics, etc.).
